

**IN THE UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF COLUMBIA**

UNITED STATES OF AMERICA, *et al.*,

Plaintiffs,

v.

GOOGLE LLC,

Defendant.

Case No. 1:20-cv-03010-APM

HON. AMIT P. MEHTA

STATE OF COLORADO, *et al.*,

Plaintiffs,

v.

GOOGLE LLC,

Defendant.

Case No. 1:20-cv-03715-APM

HON. AMIT P. MEHTA

PLAINTIFFS' REVISED PROPOSED FINAL JUDGMENT

WHEREAS, Plaintiffs United States of America, and the States and Commonwealths of Arkansas, California, Georgia, Florida, Indiana, Kentucky, Louisiana, Michigan, Missouri, Mississippi, Montana, South Carolina, Texas, and Wisconsin, by and through their respective Attorneys General (“Co-Plaintiff States”), filed their Complaint on October 20, 2020, and their Amended Complaint on January 15, 2021;

AND WHEREAS, Plaintiffs Colorado, Nebraska, Arizona, Iowa, New York, North Carolina, Tennessee, Utah, Alaska, Connecticut, Delaware, District of Columbia, Guam, Hawaii, Idaho, Illinois, Kansas, Maine, Maryland, Massachusetts, Minnesota, Nevada, New Hampshire, New Jersey, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Puerto Rico,

Rhode Island, South Dakota, Vermont, Virginia, Washington, West Virginia, and Wyoming (together “Colorado Plaintiff States”) filed their Complaint on December 17, 2020;

AND WHEREAS, the Court conducted a trial and entered Findings of Fact and Conclusions of Law in both actions on August 5, 2024;

AND WHEREAS, the Court entered judgment finding Google liable for violating Section 2 of the Sherman Act by unlawfully maintaining its monopolies in the general search services and general search text advertising markets;

NOW THEREFORE, upon the record at trial and all prior and subsequent proceedings, it is hereby ORDERED, ADJUDGED, AND DECREED:

I. JURISDICTION

The Court has jurisdiction over the subject matter of this action and over Google.

II. APPLICABILITY

This Final Judgment applies to Google, as defined below, and to all other persons in active concert or participation with Google who have received actual notice of this Final Judgment by personal service or otherwise.

III. DEFINITIONS

As used in this Final Judgment:

A. “Ads Data” means data related to Google’s selection, ranking, and placement of Search Text Ads in response to queries, including any User-side Data used in that process.

B. “Android” means all code, software, applications, application programming interfaces (APIs), and other products and services provided by Google through the Android Open Source Project (AOSP), including the open-source application framework, libraries, runtime, and kernel, which are published at <http://source.android.com> (or successor sites), and any software

development kits made available at <http://developer.android.com> (or successor sites) and all code, software, applications, APIs, and other products and services provided by Google that are critical, as informed by the views of the Technical Committee, to the full and proper functioning of an Android Device. For the purposes of this Final Judgment, Android also includes (1) the Google Play Store and Google Play Services; (2) all other code, software, applications, APIs, and products and services provided by Google that are critical, as informed by the views of the Technical Committee, to the full and proper functioning of the Google Play Store and Google Play Services; and (3) all code, software, applications, APIs, and other products and services that Google adds to open-source Android to implement the operating system (OS) on Pixel Devices.

C. “API” or “application programming interface” means a mechanism that allows different software components to communicate with each other.

D. “Apple” means Apple Inc., a corporation organized and existing under the laws of the State of California, headquartered in Cupertino, California, its successors and assigns, and its subsidiaries, divisions, groups, affiliates, partnerships, and joint ventures, and their directors, officers, managers, agents, and employees.

E. “Choice Screen” means a Search Access Point Choice Screen or Search Default Choice Screen as defined in Section IX.

F. “Chrome” means all code, software, applications, APIs, and other products and services included in Google’s Chromium or the Chrome browser, including the open-source application framework, libraries, runtime, and kernel which are published at <http://www.chromium.org> (or successor sites), and all code, software, applications, APIs, and other products and services provided by Google that are critical, as informed by the views of the Technical Committee, to the full and proper functioning of Chromium or the Chrome browser.

G. “Competitor” means any provider of, or potential entrant in the provision of, a General Search Engine (GSE) or of Search Text Ads in the United States.

H. “Device” means any smartphone, tablet, laptop, desktop, or other device that allows a user to access general search functionality.

I. “Distributor” is any Person that contracts with Google to display, load, or otherwise provide access to a Google product.

J. “GenAI” or “Generative AI” is a type of artificial intelligence that creates new content including but not limited to text, images, code, classifications, and other media using machine learning models.

K. “GenAI Product” means any application, software, service, feature, tool, functionality, or product that involves or makes use of Generative AI capabilities or models. It can include GenAI Search Access Points.

L. “Google” means Defendant Google LLC, a limited liability company organized and existing under the laws of the State of Delaware, headquartered in Mountain View, California, its parent Alphabet Inc., their successors and assigns, subsidiaries, divisions, groups, affiliates, partnerships, and joint ventures, and their directors, officers, managers, agents, and employees.

M. “Google Browser” means any web browser owned by Google, including Chrome until divested.

N. “Google Device” means any Device manufactured or refurbished by Google, including Pixel phones and tablets.

O. “Google Grounding API” means any method, including via API, by which foundation model output or a GenAI Product can connect, call, access, retrieve, or display links or information from Google’s GSE.

P. “General Search Engine” or “GSE” means software or a service that produces links to websites and other relevant information in response to a user query or prompt. “General Search Engine” or “GSE” also has the meaning defined and used in the Court’s Memorandum Opinion of August 5, 2024, ECF 1032, at 8.

Q. The terms “include” and “including” should be read as “including but not limited to,” and any use of either word is not limited in any way to any examples provided.

R. “On-device AI” is a type of artificial intelligence (AI) model that runs on a Device instead of on a cloud server. On-device AI includes a large language model (LLM) or universal language model (ULM) stored entirely on a Device.

S. “Person” or “person” means any natural person, corporate entity, partnership, association, joint venture, government entity, or trust.

T. “Publisher” means any Person who controls the legal right to any information published or otherwise made available on any website or through any mobile app.

U. “Qualified Competitor” means a Competitor who meets the Plaintiffs’ approved data security standards as recommended by the Technical Committee and agrees to regular data security and privacy audits by the Technical Committee, who makes a sufficient showing to the Plaintiffs, in consultation with the Technical Committee, of a plan to invest and compete in the GSE and/or Search Text Ads markets, and who does not pose a risk to the national security of the United States.

V. “Search Access Point” means any software, application, interface, digital product, or service where a user can enter a query or prompt and, in response to at least some user queries or prompts, receive (or be directed to a place to receive) a response that includes information from a GSE, including links to websites. Search Access Points include OS-level Search Access Points, browsers (including Search Access Points within browsers such as browser address bars), search apps, and GenAI Products that can retrieve and display information from a GSE, including links to websites.

W. “Search Feature” in Google Search means any content on a SERP that is not an organic link. Search Features include images, featured snippets, hotel units, query expansion features like auto-complete, “did you mean” prompts, spelling corrections, and related searches.

X. “Search Index” means any databases that store and organize information about websites and their content that is crawled from the web, gathered from data feeds, or collected via partnerships, from which Google selects information to provide results to users in response to general search queries.

Y. “Search Text Ad” means a general search text advertisement, which is an ad that resembles an organic link on a SERP. “Search Text Ad” also has the meaning defined and used in the Court’s Memorandum Opinion of August 5, 2024, ECF 1032, at 60, and includes Search Text Ads appearing in or in connection with Google AI Overviews.

Z. “SERP” or “Search Engine Results Page” means the results provided by a search engine, in response to a user query, including links and other features and content, including from a broad index of the web. “SERP” or “Search Engine Results Page” also has the meaning defined and used in the Court’s Memorandum Opinion of August 5, 2024, ECF 1032, at 19.

AA. “Technical Committee” or “TC” means the five-person committee of experts appointed by the Court pursuant to Paragraph X.A.

BB. “User-side Data” means all data that can be obtained from users in the United States, directly through a search engine’s interaction with the user’s Device, including software running on that Device, by automated means. User-side Data includes information Google collects when answering commercial, tail, and local queries. User-side Data may also include datasets used to train (at all stages of training including pre-training and filtering, post-training, fine-tuning) Google’s ranking and retrieval components, as well as GenAI models used for Google’s GenAI Products.

IV. PROHIBITION ON FORECLOSING OR OTHERWISE EXCLUDING COMPETITORS THROUGH CONTRACTS WITH THIRD PARTIES THAT MAINTAIN GOOGLE’S MONOPOLIES

The purposes of the remedies set forth in this Section are to unfetter the monopolized markets from Google’s exclusionary practices, pry open the monopolized markets to competition, remove barriers to entry, and ensure there remain no practices likely to result in unlawful monopolization of these markets and related markets in the future by prohibiting contracts that foreclose or otherwise exclude Competitors, including by raising their costs, discouraging their distribution, or depriving them of competitive access to inputs.

A. Preferential Treatment And Payments To Non-Apple Third Parties Prohibited: Google must not offer or provide anything of value to any non-Apple third party, including payments, for (1) preferential treatment of a General Search Engine (GSE) or Search Access Point relative to Competitors; (2) making or maintaining any GSE as a default within a new or existing Search Access Point or for undermining, frustrating, interfering with, or in any way discouraging the use of any GSE Competitor; or (3) preinstallation, placement, or default status

of any Search Access Point. This prohibition includes payments for Choice Screens (with the limited exception noted in Section IX) and preferential treatment of GSE distribution or inputs that would have the effect of disadvantaging any GSE Competitor.

B. Preferential Treatment And Payments To Apple Prohibited: Google must not offer or provide anything of value to Apple, including payments, for (1) preferential treatment of a General Search Engine (GSE) or Search Access Point relative to Competitors; (2) making or maintaining any GSE as a default within a new or existing Search Access Point or for undermining, frustrating, interfering with, or in any way discouraging the use of any GSE Competitor; or (3) preinstallation, placement, or default status of any Search Access Point. This prohibition includes payments for Choice Screens and preferential treatment of GSE distribution or inputs that would have the effect of disadvantaging any GSE Competitor.

C. Exclusionary Agreements With Publishers Prohibited: Google must not enter into a contract or other agreement, or enforce any existing agreement, with any Publisher to license data from any Publisher, website, or content creator, which provides Google exclusivity or otherwise restricts the Publisher's ability to license or otherwise make available the data to any other GSE or GenAI Product developer. This includes, for example, any agreement with a "most favored nation" or any similar provision that would require the Publisher to give Google the best terms it makes available to any other buyer or licensee.

D. Conditional Access Prohibited: Google must not condition access or terms of access to the Play Store or any other Google product on a distribution agreement for a GSE, Search Access Point, or Choice Screen; or an agreement not to distribute a Competitor's product or service. Google must not bundle, tie, comingle, or otherwise condition, a GSE or Search

Access Point with any other Google product, for example, by licensing a Google product to a Distributor and including a GSE or Search Access Point license for free.

E. Revenue Share Payments Prohibited: Google must not offer or provide to any Distributor any payment that is determined or calculated based on the usage of or revenue generated by—or any similar factor for—any particular GSE or Search Access Point (e.g., Google queries, Google Search Text Ad clicks, Google selections on a Choice Screen). For clarity, Google may make payments that are unrelated to search and are not determined or calculated based on the usage of or revenue generated by—or any similar factor for—any particular GSE or Search Access Point.

F. Search Ad Syndication Payments: Notwithstanding any other provision, Google may make payments to entities syndicating Search Ads from Google, subject to the provisions of Paragraph VIII.E.

G. Permitted Payments: Notwithstanding any other provision, Google may make the following payments:

1. Google may pay a third-party to show ads for Search Access Points in an app store, and for offering a Search Access Point in an app store, provided that:
 - a) the app store includes at least three similar non-Google Search Access Points;
 - b) the Google Search Access Point does not receive more favorable treatment than any other similar Search Access Point; and
 - c) the payment complies with Paragraph IV.E.

2. Google may offer or provide payment or other valuable consideration to a consumer for utilizing Google Search, e.g., Google may pay a consumer for each search they conduct using Google Search. Google must not offer or provide anything of value, including payments, to a consumer to set Google Search as the default GSE.

H. Acquisitions And Investments: Google must not, without providing Prior Notification, as defined in Paragraph IV.I, to the United States and the Plaintiff States, acquire any interest in, or part of, any company; enter into a new joint venture, partnership, or collaboration; or expand the scope of an existing joint venture, partnership, or collaboration, with any company that competes with Google in the GSE or Search Text Ads markets or any company that controls a Search Access Point or GenAI Product. Nothing in this Paragraph IV.H prevents any Plaintiff from separately investigating or challenging the legality of an acquisition, joint venture, partnership, or collaboration under applicable state or federal law.

I. Prior Notification:

1. Unless a transaction is otherwise subject to the reporting and waiting period requirements of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, 15 U.S.C. § 18a (the “HSR Act”), Google may not, without first providing notification to the United States and the Plaintiff States, directly or indirectly acquire (including through an asset swap agreement) any assets of or any interest, including a financial, security, loan, equity, or management interest, in any person or entity that competes with Google in the GSE or Search Text Ads markets or any company that controls a Search Access Point or Gen AI Product.

2. Google must provide the notification required by this Paragraph IV.I in the same format as, and in accordance with the instructions relating to, the Notification and Report Form set forth in the Appendix to Part 803 of Title 16 of the Code of Federal Regulations, as amended. Such notice must also be made to the Plaintiff States. Notification must be provided at least thirty (30) calendar days before acquiring any assets or interest, and must include, beyond the information required by the instructions, the names of the principal representatives who negotiated the transaction on behalf of each party and all management or strategic plans discussing the proposed transaction. If, within the thirty (30) calendar days following notification, representatives of the United States (after consultation with the Co-Plaintiff States and the Colorado Plaintiff States' enforcement committee), make a written request for additional information, Google may not consummate the proposed transaction until thirty (30) calendar days after submitting all requested information.
3. Early termination of the waiting periods set forth in this Paragraph IV.I may be requested and, where appropriate, granted in the same manner as is applicable under the requirements and provisions of the HSR Act and rules promulgated thereunder. This Paragraph IV.I must be broadly construed and any ambiguity or uncertainty regarding whether to file a notice under this Paragraph IV.I must be resolved in favor of filing notice.

J. No Circumvention Of This Section's Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this

Section or any of its provisions. For example, Google may not make payments permitted under Paragraphs IV.A, B, E, or G with the purpose or effect of circumventing or frustrating the purposes of this Section. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

V. PROHIBITION ON FORECLOSING OR OTHERWISE EXCLUDING GSE AND SEARCH TEXT AD COMPETITORS THROUGH OWNERSHIP OR CONTROL OF RELATED PRODUCTS

The purposes of the remedies set forth in this Section are to unfetter the monopolized markets from Google's exclusionary practices, pry open the monopolized markets to competition, remove barriers to entry, and ensure there remain no practices likely to result in unlawful monopolization of these markets and related markets in the future by requiring Google to divest its browser Chrome and prohibiting Google from providing its search products preferential access to related products or services that it owns or controls such as its mobile operating system (e.g., Android).

A. Chrome Divestiture: Google must promptly and fully divest Chrome, along with any assets or services necessary to successfully complete the divestiture, to a buyer approved by the Plaintiffs in their sole discretion, subject to terms that the Court and Plaintiffs approve. The evaluation of any potential buyer shall include the potential buyer's proposed business and investment plans (including those for open-source project Chromium), the United States' evaluation, at its sole discretion, of any potential risks to national security, the potential buyer's plans for sharing and protecting user data included in the acquisition, and any other issues a potential buyer may present. Google may not release any other Google Browser during the term of this Final Judgment absent approval by the Court, but Google may continue to support the existing functionality of non-Chrome Google Browsers that have already been released as of

March 7, 2025. Nothing in this Paragraph V.A prevents any Plaintiff from separately investigating or challenging the legality of an acquisition, joint venture, partnership, or collaboration under applicable state or federal law.

B. Self-Preferencing Prohibited: Google must not use its ownership and control of Android, or any other Google product or service, to:

1. make any GSE, Search Access Point, GenAI Product, or On-Device AI explicitly or implicitly mandatory on Android Devices, for example, by preventing interoperability between Android AICore or a Google Grounding API and Competitor products and services in the GSE or Search Text Ads markets;
2. reduce, prevent, or otherwise interfere with the distribution of a Competitors' GSE, Search Access Point, or GenAI Products;
3. degrade any aspect of quality, including the features, functionality, or user experience, on a Competitor's GSE, Search Access Point, or GenAI Products;
4. explicitly or implicitly, directly or indirectly, prevent or discourage manufacturers or other Android partners (e.g., carriers) from working with Competitors' GSE, Search Access Point, or GenAI Products;
5. explicitly or implicitly, directly or indirectly, punish or penalize manufacturers or other Android partners (e.g., carriers) that work with Competitors' GSE, Search Access Point, or GenAI Products; or
6. otherwise use its ownership and control of Android to explicitly or implicitly, directly or indirectly, force or coerce manufacturers or other

Android partners (e.g., carriers) to (i) work with Google’s GSE or GenAI Products or (ii) give Google’s products and services any better treatment than given Competitors’ products.

C. Contingent Structural Relief: In the event the remedies in this Final Judgment prove insufficient to serve their intended purposes of restoring competition or if Google attempts to or is successful in circumventing these remedies, then the Court may impose additional structural relief, including the divestiture of Android. If, at least five (5) years after entry of this Final Judgment, if Plaintiffs demonstrate by a preponderance of the evidence that either or both monopolized markets have not experienced a substantial increase in competition, then Google shall divest Android unless Google can show by a preponderance of the evidence that its ownership or control of Android did not significantly contribute to the lack of a substantial increase in competition.

D. No Circumvention Of This Section’s Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this Section or any of its provisions. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

VI. REQUIRED DISCLOSURES OF SCALE-DEPENDENT DATA NECESSARY TO COMPETE WITH GOOGLE

The purposes of the remedies set forth in this Section are to remove barriers to entry, pry open the monopolized markets to competition, and deprive Google of the fruits of its violations by providing Competitors access to scale-dependent data inputs—for both search and ads—that would otherwise provide Google an ongoing advantage from its exclusionary conduct. These remedies are intended to make this data available in a way that provides suitable security and privacy safeguards for the data that Google must share.

A. Google's Search Index: For the term of this Final Judgment, Google will make available, at marginal cost, to Qualified Competitors the following data related to Google's Search Index, in addition to any data made available by Google via the APIs required under Sections VII and VIII:

1. for each document in the Google Search Index a unique identifier (DocID) and another notation sufficient to denote all the documents Google considers duplicates of each other;
2. a DocID to URL map;
3. for each DocID a set of signals, attributes, or metadata associated with each DocID that are derived in any part from User-side Data including but not limited to (A) popularity as measured by user intent and feedback systems including Navboost/Glue, (B) quality measures including authoritativeness, (C) time that the URL was first seen, (D) time that the URL was last crawled, (E) spam score, (F) device-type flag, and (G) any other specified signal the TC recommends to be treated as significant to the ranking of search results; and
4. databases consisting of information sufficient to recreate Google's Knowledge Graph, including local information.

This information must be provided for all websites in the full Search Index Google uses for searches on Google.com or any other of its owned and operated general search products. Google must make this information available to Qualified Competitors on a periodic basis to be determined by Plaintiffs in consultation with the TC. For clarity, in each periodic update Google will provide a full set of DocIDs and associated signals for the entire then-current information in

Google's Search Index. Nothing in this Section VI purports to transfer intellectual property rights of third parties to index users.

B. Publisher Opt-Out: Google must provide online Publishers, websites, and content creators with an easily useable mechanism to selectively opt-out of having the content of their web pages or domains used in search indexing or used to train or fine-tune any of Google's GenAI models or GenAI Products (on a model-by-model basis). Google must enable online Publishers, websites, and content creators to opt-out of individual GenAI Products on a product-by-product basis without affecting the Publisher, website, or content creator's participation or inclusion in any other Google product or feature. Google must offer content creators on Google-owned sites (all Google owned or operated properties, including YouTube) the same opt-out provided to Publishers, websites, and content creators. Google must not retaliate against any Publisher, website, or content creator who opts-out pursuant to this Paragraph VI.B.

C. User-Side Data: For the term of this Final Judgment, Google will make available, at marginal cost, to Qualified Competitors the following User-side Data on a non-discriminatory basis while safeguarding personal privacy and security, in addition to any data made available by Google via the APIs required under Sections VII and VIII:

1. User-side Data used to build, create, or operate the GLUE statistical model(s);
2. User-side Data used to train, build, or operate the RankEmbed model(s);
and
3. The User-side Data used as training data for GenAI Models used in Search or any GenAI Product that can be used to access Search.

Google must make this data available to Qualified Competitors on a periodic basis to be determined by Plaintiffs in consultation with the TC.

D. User-Side Data Sharing Administration: Before this data specified in Paragraph VI.C is shared with Qualified Competitors, Google must use ordinary course techniques to remove any Personally Identifiable Information. Google must provide sufficient information for each dataset such that it can be reasonably understood by Qualified Competitors, including but not limited to a description of what the dataset contains, any sampling methodology used to create the dataset, and any anonymization or privacy-enhancing technique that was applied. Google will have up to six (6) months from the date of entry of this Final Judgment to implement the technology and provide any notice necessary to comply with this Section VI, and the six-month time period will start once Plaintiffs, in consultation with the TC, determine that the technology, including security and privacy safeguards, is fully functional.

E. Ads Data: For the term of this Final Judgment, Google must provide Qualified Competitors, at marginal cost, the following Ads Data, in addition to any data made available by Google via the APIs required under Sections VII and VIII: Ads Data used to operate, build or train AdBrain models or other models used in Ads targeting, retrieval, assessing ad relevance, bidding, auctioning (including predicted click-through rates (pCTR)), formatting, or content generation.

F. Ads Data Sharing Implementation: Before this data specified in Paragraph VI.E. is shared with Qualified Competitors, Google must use ordinary course techniques to remove any Personally Identifiable Information. Google must provide sufficient information for each dataset such it can be reasonably understood, including but not limited to a description of what the dataset contains, any sampling methodology used to create the dataset, and any anonymization or

privacy-enhancing technique that was applied. Google will have up to six (6) months from the date of entry of this Final Judgment to implement the technology and provide any notice necessary to comply with this Section VI, and the six-month time period will start once Plaintiffs, in consultation with the TC, determine that the technology, including security and privacy safeguards, is fully functional.

G. No Circumvention Of This Section's Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this Section or any of its provisions. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

VII. REQUIRED SYNDICATION OF SEARCH RESULTS NECESSARY TO BUILD GSE QUALITY AND SCALE OF QUALIFIED COMPETITORS

The purposes of the remedies set forth in this Section are to remove barriers to entry, pry open the monopolized markets to competition, and deprive Google of the fruits of its violations by enabling Competitors to quickly erode Google's scale advantages, while also providing incentives for those rivals and entrants to transition to independence. Google may not syndicate its search results except as allowed by Section VII or otherwise approved by Plaintiffs.

A. Search Syndication License: Google must take steps sufficient to make available to any Qualified Competitor, at no more than the marginal cost of this syndication service, a syndication license whose term will be ten (10) years from the date the license is signed, and which will require Google, via real-time API(s), to make the following information and data available in response to each query issued or submitted by a Qualified Competitor:

1. Data sufficient to understand the layout, display, slotting, and ranking of all items or modules on the SERP, including but not limited to the mainline content and sidebar content and sitelinks and snippets;

2. Ranked organic search results obtained from Google database or index, regardless of whether such web content was obtained by crawling the Internet or by other means;
3. Search features that enable query corrections, modification, or expansion like spelling, synonyms, autocomplete, autosuggest, related search, “did you mean,” “people also ask,” and any other important query rewriting features identified by the TC;
4. Local, Maps, Video, Images, and Knowledge Panel search feature content; and
5. FastSearch results (fast top organic results).

The information provided pursuant to this Section must be the same as if the Qualified Competitor’s query had been submitted through Google.com. It will be the Qualified Competitor’s sole discretion to determine how much information to share with Google regarding the end-user.

B. Syndication License Obligations: Google must provide the license on a non-discriminatory basis to any Qualified Competitor and may impose no restrictions on use, display, or interoperability with Search Access Points, including of GenAI Products, provided, however, that Google may take reasonable steps to protect its brand, its reputation, and security. Licensees may elect, in their sole discretion, which queries (some or all) for which they will request syndicated results and which syndication components to display or use and may do so in any manner they choose. Google may not place any conditions on how any licensee may use syndicated content under Paragraph VII.A, nor may Google retain, or use (in any way), syndicated queries or other information it obtains under Paragraph VII.A for its own products

and services. For the avoidance of doubt, this Final Judgment only requires Google to provide syndication for queries that originate in the United States.

C. Search Syndication License Terms: The search syndication license must have the following additional features:

1. Google will make syndicated content available via an API that provides responses with latency and reliability functionally equivalent to what Google provides for its own SERP.
2. Syndication will start with significant access to the data required by Paragraph VII.A above and decline over the course of a 10-year period with an expectation that licensees will become independent of Google over time through investment in their own search capabilities. The scope of allowable syndication will be determined by the Plaintiffs in consultation with the TC.
3. Google may not consent to licensees exceeding syndication limits set by Plaintiffs, and licensees must submit to the TC audits of syndication frequency.

D. Contingent Search Text Ads Syndication License Relief: If, at least five (5) years after entry of this Final Judgment, if Plaintiffs demonstrate by a preponderance of the evidence that either or both monopolized markets have not experienced a substantial increase in competition, then Google must take steps sufficient to make available to any Qualified Competitor, at no more than the marginal cost of this syndication service, a syndication license whose term will be for the remainder of this Final Judgment and which makes available all components of its Search Text Ads product, including all types of Search Text Ads (including

any assets, extensions, or similar Search Text Ad variations) appearing on Google's SERP or available through Google's AdSense for Search. Google must make the purchase of ads syndicated under this Section available to advertisers on a nondiscriminatory basis comparable to Google's other Search Text Ads. For each syndicated ad result, Google must provide to the Qualified Competitor all Ads Data related to the result, provide the license on a non-discriminatory basis, and may impose no restrictions on use, display, or interoperability with Search Access Points, including of GenAI Products, provided, however, that Google may take reasonable steps to protect its brand, its reputation, and security. The Contingent Search Text Ads Syndication License relief is separate from, and in addition to, the Search Text Ads Syndication remedy provided in Paragraph VIII.E, except that the Contingent Search Text Ads Syndication License must, if implemented, comply with Paragraph VIII.E.

E. Synthetic Queries: Google must permit, at marginal cost, Qualified Competitors to submit synthetic or simulated queries, and Google must provide results in the same format as the results provided in the API required in this Section VII. The Qualified Competitor will be entitled to log and use (in any way) Google's results, including ads and anything else that would appear on a Google SERP. The maximum number of allowable synthetic queries will be determined by the Plaintiffs in consultation with the TC.

F. No Restraints On Use For Other Purposes: Google must permit, and must not limit or otherwise restrain, Qualified Competitors from using the information and services obtained under this Section VII for any purpose related to general search or general search text advertising.

G. Existing Syndication Agreements: The provisions of this Section VII will have no effect on any existing Google syndication agreements with third parties or on its ability to enter into syndication contracts with third parties other than Qualified Competitors, except that:

1. Google must permit any entity with an existing syndication agreement who becomes a Qualified Competitor, at the Qualified Competitor's sole discretion, to terminate its existing agreement in favor of the remedies in this Section VII.
2. Google must comply with Paragraph VII.A for all existing syndication agreements between Google and third-party GSEs by the earlier of two (2) years from the Effective Date or the term of any existing syndication contract.
3. For any existing or future Google agreements licensing or syndicating any search or search ads products to a Competitor, Google cannot:
 - a) Enforce any provisions restricting use, display, or interoperability with Search Access Points, including of GenAI Products, provided, however, that Google may take reasonable steps to protect its brand, its reputation, and security. For example, licensees may elect, in their sole discretion, which queries (some or all) for which they will request syndicated results and which syndication components to display or use and may do so in any manner they choose.
 - b) Retain or use (in any way) syndicated queries or other information it obtains from Competitors for its own products and services.

H. No Circumvention Of This Section's Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this Section or any of its provisions. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

VIII. SEARCH TEXT AD TRANSPARENCY AND REDUCTION OF SWITCHING COSTS

The purposes of the remedies set forth in this Section are to reduce entry barriers, afford advertisers better data to inform product choices, and pry open the monopolized markets to competition, including by providing advertisers with information and options providing visibility into the performance and cost of their Google Search Text Ads and by providing the necessary ability to optimize their advertising, including by purchasing Search Text Ads from Google Competitors.

A. Search Query Report: For each Search Text Ad served or clicked, Google must make available to advertisers at the individual ad level for the preceding 18-month period, data showing the query, keyword trigger, match type, cost-per-click (CPC), click-through rate (CTR), SERP positioning, long-term value (LTV), conversion data, and any other metric necessary for the advertiser to evaluate its ad performance. This data must be made available through an API that permits advertisers to download raw data in real time, generate reports and summaries, and perform other analytical functions to assess ad spend, ad performance, and in-campaign optimization (including the ability to assess incremental clicks generated by Search Text Ads). This data must also be provided to advertisers through periodic (at least monthly) autogenerated summaries accessible through the Google ads system interface.

B. Keyword Matching: Google must make available to advertisers a keyword matching option such that, when an advertiser chooses this matching option for a given keyword,

the advertiser's ad will be eligible for the ad auction only when a query's content exactly matches with no variation to the keyword selected by the advertiser. This same matching option must also be made available for use with negative keywords.

C. Access To Data Reports: Google must not limit the ability of advertisers to export in real time (by downloading through an interface or API access) data or information relating to their entire portfolio of ads or advertising campaigns bid on, placed through, or purchased through Google, including data relating to placement or performance (including conversion and conversion value data). The data made available must include all of the information contained in or used by Google in its Google Analytics, Ads Data Hub, Google Ads Data Manager, BigQuery, or Store sales and visitor measurement products, on the most granular and detailed level.

D. Search Text Ads Auction Changes: On a monthly basis, Google must provide the TC and Plaintiffs a report outlining all changes made to its Search Text Ads auction in the preceding month, provide (1) Google's public disclosure of that change or (2) a statement why no public disclosure is necessary, and further identify each change which Google considers material. Plaintiffs have the right to challenge any disclosure they deem inadequate.

E. Search Text Ads Syndication: Google must take steps sufficient to make available to any Qualified Competitor a Search Ads Syndication License whose term will be ten (10) years from the date the license is signed, providing latency, reliability, and performance functionally equivalent to what Google provides for Search Text Ads on its own SERP, and available to Qualified Competitors on financial terms no worse than those offered to any other user of Google's Search Text Ads syndication products, e.g. AdSense for Search, or any other current or future products offering syndicated Search Text Ads. It will be the Qualified Competitor's sole

discretion to determine how much information to share with Google regarding the end-user. Search Text Ads syndication licenses to Qualified Competitors must include all types of Search Text Ads (including any assets, extensions, or similar Search Text Ad variations) appearing on Google's SERP or available through its syndication products. Google must make the purchase of ads syndicated under this Paragraph available to advertisers on a nondiscriminatory basis comparable to, and no more burdensome than, the availability of Google's other Search Text Ads, must include Qualified Competitors in its Search Partner Network, and must also provide advertisers the option to appear on each individual Qualified Competitor's sites on a site-by-site basis (i.e. an advertiser can choose to appear as a syndicated result on a Qualified Competitor's site regardless of whether it opts into the Search Partner Network or chooses to appear on any other site, including Google.com). For each syndicated ad result, Google must provide to the Qualified Competitor all Ads Data related to the ads provided to the Qualified Competitor, including the identity of the advertiser and CPC paid, and conversion data where available, without restrictions on use of the Ads Data including restrictions on using it to market or solicit advertisers for the Qualified Competitors' own advertising products. For ads syndicated to Qualified Competitors, Google may impose no restrictions on use, display, or interoperability with Search Access Points, including of GenAI Products, provided, however, that Google may take reasonable steps to protect its brand, its reputation, and security. Google may not place any conditions on how any Qualified Competitor may use or display syndicated content under this Paragraph VIII.E, including on scraping, indexing, or crawling the syndicated results. For example, licensees may elect, in their sole discretion, which queries (some or all) for which they will request syndicated Search Text Ads and which syndication components to display or use and may do so in any manner they choose. Qualified Competitors must have the right to set a

minimum CPC for ads syndicated under this Paragraph VIII.E to appear on their website. Google may not retain or use (in any way) syndicated queries or other information it obtains under this Paragraph VIII.E for its own products and services. For the avoidance of doubt, Google must only provide syndication for queries that originate in the United States.

F. No Circumvention Of This Section's Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this Section or any of its provisions. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

IX. CHOICE SCREENS ON EXISTING NON-APPLE DEVICES, GOOGLE DEVICES, AND GOOGLE BROWSERS

The purposes of the remedies set forth in this Section are to unfetter the markets from Google's illegal monopolization and deprive it of the fruits of its violations by informing users, including those accustomed to Google's default status on their existing Devices and Google Devices, of the competitive choices for GSEs. The remedies in this Section are further intended to limit Google's ability to enter into or continue its anticompetitive distribution agreements.

A. Choice Screens For Google Search Access Points On Existing Non-Apple, Third-Party Devices: For every Google Search Access Point that was preinstalled on a non-Apple, third-party Device under a distribution agreement before the date of entry of this Final Judgment, Google must offer the Distributor the option to display (1) a Search Access Point Choice Screen (if the Search Access Point Choice Screen includes a Google Browser as an option and the Google Browser is selected, then a Default Search Engine Choice Screen must be shown for the Google Browser) or (2) a Search Default Choice Screen (if Google has already shown a Search Default Choice Screen for another Search Access Point on that Device, Google may apply the previous selection to each Search Access Point), to any user who has Google as their default

GSE on that Search Access Point. For each Device displaying such Choice Screens, the Distributor shall receive from Google for the remaining life of the Device or one (1) year, whichever is shorter, a fixed monthly payment equal to the average monthly amount that Google paid to the Distributor for that Device during the shorter of the 12-month period prior to the date of entry of this Final Judgment or the lifetime of the Device.

B. Choice Screens For Search Access Points On Google Devices: On new Google Devices, Google may display a Search Access Point Choice Screen or may preinstall a Google Search Access Point that implements a Default Search Choice Screen (if the Search Access Point Choice Screen includes a Google Browser as an option and the Google Browser is selected, then a Default Search Engine Choice Screen must be shown for the Google Browser). For each Search Access Point preinstalled on an existing Google Device before the date of entry of this Final Judgment, Google must (a) implement a Default Search Choice Screen or a Search Access Point Choice Screen (if the Search Access Point Choice Screen includes a Google Browser as an option and the Google Browser is selected, then a Default Search Engine Choice Screen must be shown for the Google Browser) or (b) delete—or, if undeletable, remove the visual representation of—the Search Access Point.

C. Choice Screens On Google Browsers: Google must display a Search Default Choice Screen on every new and existing instance of a Google Browser where the user has not previously affirmatively selected a default GSE for that Google Browser, including by changing the search default through the settings.

D. Choice Screens: Google must disclose each Choice Screen, the related distribution agreement, if relevant, and its plan for implementing that Choice Screen to Plaintiffs and the TC at least sixty (60) days in advance of the Choice Screen being displayed to any user.

After consultation with a behavioral scientist, the TC will report to Plaintiffs whether each Choice Screen satisfies these requirements, and ultimately Plaintiffs must approve any Choice Screen offered pursuant to this Final Judgment. Plaintiffs, in consultation with the TC, may require modifications to any Choice Screen over time. Any choice screen provided for in this Final Judgment must be designed to not preference Google, to be accessible, to be easy to use, and to minimize choice friction, based on empirical evidence of user behavior.

1. “Search Access Point Choice Screen” means a choice screen that appears on a Device and is no more favorable to Google than a choice screen with the following characteristics (e.g., a choice screen may be randomized or may show a Competitor in the top position every time rather than having the options appear in random order):
 - a) for a Google Device, five options qualify to appear on the choice screen: a single Google-owned Search Access Point, the Device’s current default Search Access Point (if applicable), and the three-to-four (as applicable) consenting rival Search Access Points of the same type with the highest U.S. market shares;
 - b) for a non-Google Device, a single Google-owned Search Access Point and three-to-five rival Search Access Points selected by the Distributor appear as options on the choice screen;
 - c) the options appear in random order (1) at the device’s first use, including after a factory reset; and (2) if the user has not otherwise seen the choice screen within the previous 90 days, at the device’s

first use on or after a fixed, yearly date coordinated across all Choice Screens; and

- d) the user can return to the choice screen at any time by selecting a reasonably accessible setting.

2. “Search Default Choice Screen” means a choice screen that appears on a Search Access Point and is no more favorable to Google than a choice screen with the following characteristics (e.g., a choice screen may be randomized or may show a Competitor in the top position every time rather than having the options appear in random order):

- a) for a Google Search Access Point, five options qualify to appear on the choice screen: a single Google-owned GSE, the current default search engine (if applicable), and the three-to-four (as applicable) consenting rival GSEs with the highest U.S. market shares;
- b) for a non-Google Search Access Point, a single Google-owned GSE and three-to-five rival GSEs selected by the Search Access Point company appear as options on the choice screen;
- c) the options appear in random order (1) at the Search Access Point’s first use, including after a factory reset; (2) if the user has not otherwise seen the choice screen within the previous 90 days, at the Search Access Point’s first use on or after a fixed, yearly date coordinated across all Choice Screens;

- d) the GSE selected on the choice screen becomes the Search Access Point's default GSE for those user queries and prompts that result in the display of web links; and
- e) the user can return to the choice screen at any time by selecting a reasonably accessible setting.

E. [The following provisions in this Paragraph IX.E are proposed solely by the Colorado Plaintiff States. Plaintiff United States and its Co-Plaintiff States do not join in proposing these remedies.] Public Education Fund: Google will fund a nationwide advertising and education program designed to inform users of the outcome of this litigation, the remedies in this Final Judgment, the purpose of the remedies to restore competition and improve consumer choice, and the mechanisms available to consumers to exercise choice in the selection of GSEs. The Public Education Fund will be designed to best advance the ability of consumers to make informed choices. The TC shall assess the design and funding level of the Public Education Fund for the approval of the Colorado Plaintiff States and subsequent review of this Court. In its work, the TC shall assess the role of short-term incentive payments in achieving the goals of the Public Education Fund. Nothing in this program will limit the ability of consumers to change any Search Access Point or a search default on a Search Access Point, at any time as they choose.

F. No Circumvention Of This Section's Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this Section or any of its provisions. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

X. EFFICIENT, EFFECTIVE, AND ADMINISTRABLE MONITORING AND ENFORCEMENT

The purposes of the remedies set forth in this Section are to ensure the efficient, effective, and administrable monitoring and enforcement of this decree.

A. Technical Committee:

1. Within thirty (30) days of entry of this Final Judgment, the Court will appoint, pursuant to the procedures below, a five-person Technical Committee (“TC”) to assist in enforcement of and compliance with this Final Judgment.
2. The TC members must be experts in some combination of software engineering, information retrieval, artificial intelligence, economics, and behavioral science. No TC member may have a conflict of interest that could prevent them from performing their duties in a fair and unbiased manner. In addition, unless Plaintiffs specifically consent, no TC member:
 - a) may have been employed in any capacity by Google or any Competitor to Google within the six-month period directly predating their appointment to the TC;
 - b) may have been retained as a consulting or testifying expert by any party in this action; or
 - c) may perform any work for Google or any Competitor of Google during the time that they serve on the TC and for one (1) year after ceasing to serve on the TC.
3. Within seven (7) days of entry of this Final Judgment, Plaintiff United States (after consultation with the Co-Plaintiff States), the Colorado

Plaintiff States, and Google will each select one member of the TC, and a majority of those three members will then select the remaining two members. Plaintiff United States' appointee will serve as chair. The selection and approval process will be as follows:

- a) As soon as practicable after submission of this Final Judgment to the Court, the Plaintiffs as a group will identify to Google the individuals they propose to select as their designees to the TC, and Google will identify to Plaintiffs the individual it proposes to select as its designee. No party may object to a selection on any ground other than failure to satisfy the requirements of Paragraph X.A.2 above. Any such objection must be made within ten (10) business days of the receipt of notification of selection.
- b) The Plaintiffs will apply to the Court for appointment of the persons selected pursuant to Paragraph X.A.3.a) above. Any objections to the eligibility of a selected person that the parties have failed to resolve between themselves will be decided by the Court based solely on the requirements stated in Paragraph X.A.2 above.
- c) As soon as practicable after their appointment by the Court, the three members of the TC selected by the Plaintiffs and Google (the "Standing Committee Members") will identify to the Plaintiffs and Google the persons that they in turn propose to select as the remaining members of the TC. The Plaintiffs and Google must not

object to these selections on any grounds other than failure to satisfy the requirements of Paragraph X.A.2 above. Any such objection must be made within ten (10) business days of the receipt of notification of the selection and must be served on the other party as well as on the Standing Committee Members.

d) The Plaintiffs will apply to the Court for appointment of the persons selected by the Standing Committee Members. If the Standing Committee Members cannot agree on the fourth or fifth members of the TC, that member or members will be appointed by the Court. Any objection by Plaintiffs or Google to the eligibility of the person selected by the Standing Committee Members which the parties have failed to resolve among themselves will also be decided by the Court based solely on the requirements stated in Paragraph X.A.2 above.

4. The Standing Committee Members will serve for an initial term of thirty-six (36) months; the remaining members will serve for an initial term of thirty (30) months. At the end of a TC member's term, the party that originally selected them may, in its sole discretion, either request re-appointment by the Court to additional terms of the same length, or replace the TC member in the same manner as provided for in Paragraph X.A.3 above. In the case of the fourth and fifth members of the TC, those members will be re-appointed or replaced in the manner provided in Paragraph X.A.3 above.

5. If Plaintiffs determine that a member of the TC has failed to act diligently and consistently with the purposes of this Final Judgment, or if a member of the TC resigns, or for any other reason ceases to serve in their capacity as a member of the TC, the person or persons that originally selected the TC member will select a replacement member in the same manner as provided for in Paragraph X.A.3 above.
6. Promptly after appointment of the TC by the Court, the Plaintiffs will enter into a Technical Committee Services Agreement (“TC Services Agreement”) with each TC member that grants the rights, powers, and authorities necessary to permit the TC to perform its duties under this Final Judgment. Google must indemnify each TC member and hold them harmless against any losses, claims, damages, liabilities or expenses arising out of, or in connection with, the performance of the TC’s duties, except to the extent that such liabilities, losses, damages, claims, or expenses result from misfeasance, gross negligence, willful or wanton acts, or bad faith by the TC member. The TC Services Agreements must include the following:
 - a) The TC members will serve, without bond or other security, at the cost and expense of Google on such terms and conditions as the Plaintiffs approve, including the payment of reasonable fees and expenses.

- b) The TC Services Agreement will provide that each member of the TC must comply with the limitations provided for in Paragraph X.A.2 above.
7. The TC must have the following powers and duties:
- a) The TC will have the power and authority to monitor Google's compliance with its obligations under this Final Judgement.
 - b) The TC will have the power to recommend reasonable data security standards applicable to Qualified Competitors, which will be approved by the Plaintiffs.
 - c) The TC will have the power to evaluate Choice Screens and recommend to Plaintiffs whether they comply with this Final Judgment.
 - d) The TC may, on reasonable notice to Google:
 - (1) interview, either informally or on the record, any Google personnel, who may have their individual counsel present; any such interview will be subject to the reasonable convenience of such personnel and without restraint or interference by Google;
 - (2) inspect and copy any document in the possession, custody, or control of Google personnel;
 - (3) obtain reasonable access to any system or equipment to which Google personnel have access;

- (4) obtain reasonable access to, and inspect, any physical facility, building or other premises to which Google personnel have access; and
 - (5) require Google personnel to provide documents, data and other information, and to submit reports to the TC containing such material, in such form as the TC may reasonably direct.
- e) The TC will have access to Google's source code and algorithms, subject to a confidentiality agreement, as approved by the Plaintiffs and to be agreed to by the TC members pursuant to Paragraph X.A.8 below, and by any staff or consultants who may have access to the source code and algorithms. The TC may study, interrogate and interact with the source code and algorithms in order to perform its functions and duties, including the handling of complaints and other inquiries from third parties.
- f) The TC will receive complaints from Google's Compliance Officer (as described in Paragraph X.B below), third parties, or the Plaintiffs and handle them in the manner specified in Paragraph X.C below.
- g) The TC must report in writing to the Plaintiffs, initially every three (3) months for three (3) years and thereafter every six (6) months until expiration of this Final Judgment, the actions it has undertaken in performing its duties pursuant to this Final

Judgment, including the identification of each business practice reviewed and any recommendations made by the TC.

- h) Regardless of when reports are due, when the TC has reason to believe that there may have been a failure by Google to comply with any term of this Final Judgment, or that Google is attempting to circumvent any provision of this Final Judgment or the intended purposes of this Final Judgment, the TC must immediately notify the Plaintiffs in writing setting forth the relevant details.
- i) TC members may communicate with third parties about how their complaints or inquiries might be resolved with Google, so long as the confidentiality of information obtained from Google is maintained.
- j) The TC may hire at the cost and expense of Google, with prior notice to Google and subject to approval by the Plaintiffs, such staff or consultants (all of whom must meet the qualifications of Paragraphs X.A.2.a-c) as are reasonably necessary for the TC to carry out its duties and responsibilities under this Final Judgment. The compensation of any person retained by the TC will be based on reasonable and customary terms commensurate with the individual's experience and responsibilities.
- k) The TC must account for all reasonable expenses incurred, including agreed upon fees for the TC members' services, subject to the approval of the Plaintiffs. Google's failure to promptly pay

the TC's accounted-for costs and expenses, including for agents and consultants, will constitute a violation of this Final Judgment and may result in sanctions imposed by the Court. Google may, on application to the Court, object to the reasonableness of any such fees or other expenses only if Google has conveyed such objections to the Plaintiffs and the TC within ten (10) calendar days of receiving the invoice for such fees or other expenses. On any such application, (a) Google will bear the burden to demonstrate unreasonableness; (b) Google must establish an escrow account into which it deposits the disputed costs and expenses until the dispute is resolved; and (c) the TC members will be entitled to recover all costs incurred on such application (including reasonable attorneys' fees and costs), regardless of the Court's disposition of such application, unless the Court expressly finds that the TC's opposition to the application was without substantial justification.

1) *[The following provision in Paragraph X.A.7.1 is proposed solely by the Colorado Plaintiff States. Plaintiff United States and its Co-Plaintiff States do not join in proposing this remedy.]* The TC will have the power to implement the Public Education Fund as provided for in Paragraph IX.E above.

8. Each TC member, and any consultants or staff hired by the TC, must sign a confidentiality agreement prohibiting disclosure of any information

obtained in the course of performing his or her duties as a member of the TC or as a person assisting the TC, to anyone other than another TC member or a consultant or staff hired by the TC, Google, the Plaintiffs, or the Court. All information gathered by the TC in connection with this Final Judgment and any report and recommendations prepared by the TC must be treated as Highly Confidential under the Protective Order in this case, and must not be disclosed to any person other than another TC member or a consultant or staff hired by the TC, Google, the Plaintiffs, and the Court except as allowed by the Protective Order entered in the Action or by further order of this Court. No member of the TC may make any public statements relating to the TC's activities.

B. Internal Compliance Officer:

1. Google must designate, within thirty (30) days of entry of this Final Judgment, an employee of Google as the internal Compliance Officer with responsibility for administering Google's antitrust compliance program and helping to ensure compliance with this Final Judgment.
2. Within seven (7) days of the Compliance Officer's appointment, Google must identify to the Plaintiffs the Compliance Officer's name, business address, telephone number, and email address. Within fifteen (15) days of a vacancy in the Compliance Officer position, Google must appoint a replacement and identify to the Plaintiffs the replacement Compliance Officer's name, business address, telephone number, and email address.

Google's initial or replacement appointment of the Compliance Officer is subject to the approval of the Plaintiffs.

3. The Compliance Officer must supervise the review of Google activities to ensure that they comply with this Final Judgment. The Compliance Officer may be assisted by other employees of Google.
4. The Compliance Officer must be responsible for performing the following activities:
 - a) within thirty (30) days after entry of this Final Judgment, distributing a copy of the Final Judgment to all officers and employees of Google;
 - b) distributing a copy of this Final Judgment to any person who succeeds to a position described in Paragraph X.B.4.a above within thirty (30) days of the date the person starts that position;
 - c) ensuring that those persons designated in Paragraph X.B.4.a above are annually trained on the meaning and requirements of this Final Judgment and the U.S. antitrust laws and advising them that Google's legal advisors are available to confer with them regarding any question concerning compliance with this Final Judgment or the U.S. antitrust laws;
 - d) obtaining from each person designated in Paragraph X.B.4.a above an annual written certification that he or she: (i) has read and agrees to abide by the terms of this Final Judgment; and (ii) has

- been advised and understands that his or her failure to comply with this Final Judgment may result in a finding of contempt of court;
- e) maintaining a record of all persons to whom a copy of this Final Judgment has been distributed and from whom the certification described in Paragraph X.B.4.d above has been obtained;
 - f) ensuring that all employees, and all new employees, receive a copy of this Final Judgment and receive annual training on compliance with the U.S. antitrust laws (the Compliance Officer will be responsible for approving the content, schedule, and scope of delivery of compliance training within Google with respect to: compliance with the decree itself; U.S. antitrust laws; and obligations to preserve and produce materials for use in investigations, litigations, or regulatory proceedings);
 - g) annually communicating to all employees that they may disclose to the Compliance Officer, without reprisal for such disclosure, information concerning any violation or potential violation of this Final Judgment or the U.S. antitrust laws by Google, and establishing a confidential avenue for any employee to report potential violations;
 - h) establishing and maintaining the website provided for in Paragraph X.C.2.a below;
 - i) receiving complaints from third parties, the TC, and the Plaintiffs concerning Google's compliance with this Final Judgment and

following the appropriate procedures set forth in Paragraph X.C below;

- j) maintaining a record of all complaints received and action taken by Google with respect to each such complaint; and
- k) ensuring employees retain all relevant documents and electronically stored information, regardless of medium or form, related to this Final Judgment and all complaints received and or action taken by Google with respect to any complaint.

5. Google must within thirty (30) days further appoint a senior business executive, who has visibility into any Google entity with obligations under this Final Judgment, who Google will make available to update the Court on Google's compliance at regular status conferences or as otherwise ordered.
6. Google will retain (if it has not already) a licensed attorney in good standing in California to collect documents and interview employees and generally review Google's document retention practices and Google's compliance with its legal discovery obligations under this case and final judgment. This attorney will be retained for a term no shorter than eighteen (18) months. This attorney (and any team this attorney assembles) will present to the Audit and Compliance Committee (or any successor Board Committee) on the retention of documents and Google's compliance with its discovery obligations.

C. Voluntary Dispute Resolution:

1. Third parties may submit complaints concerning Google's compliance with this Final Judgment to the Plaintiffs, the TC, or the Compliance Officer.
2. Third parties, the TC, or Plaintiffs in their discretion may submit to the Compliance Officer any complaints concerning Google's compliance with this Final Judgment. Without in any way limiting their authority to take any other action to enforce this Final Judgment, the Plaintiffs may submit complaints to the Compliance Officer whenever doing so would be consistent with the public interest.
 - a) To facilitate the communication of complaints and inquiries by parties, the Compliance Officer must place on Google's website, in a manner acceptable to the Plaintiffs, the procedures for submitting complaints. To encourage whenever possible the informal resolution of complaints and inquiries, the website must provide a mechanism for communicating complaints and inquiries to the Compliance Officer.
 - b) Google has thirty (30) days after receiving a complaint to attempt to resolve or to reject it.
 - c) Within thirty (30) days of receiving a complaint, the Compliance Officer must advise the TC and the Plaintiffs of the nature of the complaint and its disposition. The TC may then propose to the

Plaintiffs further actions consistent with this Final Judgment, including consulting with Plaintiffs regarding the complaint.

3. The Compliance Officer, third parties, or the Plaintiffs in their discretion may submit to the TC any complaints concerning Google's compliance with this Final Judgment.

- a) The TC must investigate complaints it receives and will consult with the Plaintiffs regarding its investigation. At least once during its investigation, and more often when it may help resolve complaints informally, the TC will meet with the Compliance Officer to allow Google to respond to the substance of the complaint and to determine whether the complaint can be resolved without further proceedings.
- b) Following its investigation, the TC will advise Google and the Plaintiffs of its conclusion and its proposal for cure.
- c) Reports and recommendations from the TC may be received into evidence by the Court in connection with any effort by any Plaintiff to enforce this Final Judgment but must not be otherwise made available in any other court or tribunal related to any other matter. No member of the TC will be required to testify by deposition, in court, or before any other tribunal regarding any matter related to this Final Judgment.

- d) The TC may preserve the anonymity of any third-party complainant where it deems it appropriate to do so upon the request of the Plaintiffs or the third party, or in its discretion.

D. Compliance Inspection:

1. Without in any way limiting the sovereign enforcement authority of each of the Colorado Plaintiff States, the Colorado Plaintiff States will form a committee to coordinate their enforcement of this Final Judgment. Neither a Co-Plaintiff State nor a Colorado Plaintiff State may take any action to enforce this Final Judgment without first consulting with the United States and with the Colorado Plaintiff States' enforcement committee.
2. For the purposes of determining or securing compliance with this Final Judgment or of determining whether this Final Judgment should be modified or vacated, upon written request of an authorized representative of the Assistant Attorney General for the Antitrust Division (after consultation with the Co-Plaintiff States and the Colorado Plaintiff States' enforcement committee) or of the Attorney General of a Co-Plaintiff State or the Attorney General of a Colorado Plaintiff State (after consultation with the United States and the Colorado Plaintiff States' enforcement committee), as the case may be, and reasonable notice to Google, Google must permit, from time to time and subject to legally recognized privileges, authorized representatives, including agents retained by any Plaintiff:

- a) to have access during Google’s office hours to inspect and copy, or at the option of the Plaintiff, to require Google to provide electronic copies of all books, ledgers, accounts, records, data, and documents in the possession, custody, or control of Google relating to any matters contained in this Final Judgment; and
- b) to interview, either informally or on the record, Google’s officers, employees, or agents, who may have their individual counsel present, relating to any matters contained in this Final Judgment. The interviews must be subject to the reasonable convenience of the interviewee and without restraint or interference by Google.

3. Upon the written request of an authorized representative of the Assistant Attorney General for the Antitrust Division (after consultation with the Co-Plaintiff States and the Colorado Plaintiff States’ enforcement committee) or of the Attorney General of a Co-Plaintiff State or the Attorney General of a Colorado Plaintiff State (after consultation with the United States and the Plaintiff States’ enforcement committee), Google must submit written reports or respond to written interrogatories, under oath if requested, relating to any matters contained in this Final Judgment.

E. Anti-Retaliation: Google must not retaliate in any form against a person because it is known to Google that the person is or is contemplating:

1. developing, distributing, promoting, syndicating, using, selling, offering, or licensing any product or service that competes with—or facilitates

competition with—a Google-affiliated GSE or a Google-affiliated Search Text Ads product;

2. filing a complaint related to Google’s compliance with this Final Judgment;
3. testifying, assisting, cooperating with, or participating in any manner in an investigation, proceeding, hearing, or litigation related to Google’s compliance with this Final Judgment; or
4. exercising any of the options or alternatives provided for under this Final Judgment.

F. Anti-Circumvention: Google is enjoined from enforcing or complying with any provision in any existing or future contract, agreement, or understanding which is otherwise prohibited by this Final Judgment.

1. Google must not (i) engage in any conduct designed to replicate the effect of any behavior found by the Court to violate the Sherman Act; (ii) engage in any conduct substantially similar to conduct prohibited by another Section of this Final Judgment or designed to evade any obligation imposed by this Final Judgment; or (iii) engage in any conduct with the purpose or effect of evading or frustrating the intended purposes of this Final Judgment.
2. For the avoidance of doubt, the provisions in this Paragraph X.F are worldwide in scope and are applicable to Google’s conduct or contracts regardless of where it occurred or purports to apply.

G. No Circumvention Of This Section's Purposes: Google may not undertake any action or omission with the purpose or effect of circumventing or frustrating the purposes of this Section or any of its provisions. Complaints regarding non-compliance with this Section may be referred to the TC for review in accordance with Paragraph X.C.3 below.

XI. RETENTION OF JURISDICTION AND ENFORCEMENT OF FINAL JUDGMENT

A. Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of its provisions (including an order to divest any relevant Google business), for the enforcement of compliance with this Final Judgment, and for the punishment of any violation of this Final Judgment. In any motion to modify this Final Judgment, Plaintiffs need not show any change in circumstances, but need only demonstrate that modification is necessary to achieve the intended purposes of this Final Judgment to restore competition in the monopolized markets. In any action to enforce this Final Judgment, Google must show by a preponderance of the evidence that its actions are in compliance with this Final Judgment.

B. The Court may act *sua sponte* to issue orders or directions for the construction or carrying out of this Final Judgment, for the enforcement of compliance, and for the punishment of any violation.

C. This Final Judgment should be interpreted to give full effect to the procompetitive purposes of the U.S. antitrust laws and to restore the competition the Court found was harmed by Google's illegal conduct.

D. For a period of four (4) years following the expiration of this Final Judgment, if any Plaintiff has evidence that Google violated this Final Judgment before it expired, that

Plaintiff may file an action against Google in this Court requesting that the Court order

(1) Google to comply with the terms of this Final Judgment for an additional term of at least four (4) years following the filing of the enforcement action; (2) all appropriate contempt remedies; and (3) additional relief needed to ensure Google complies with the terms of this Final Judgment.

E. In connection with a successful effort by any Plaintiff to enforce this Final Judgment against Google, whether litigated or resolved before litigation, Plaintiff may request that the Court order Google to reimburse that Plaintiff for the fees and expenses of its attorneys, as well as all other costs, including experts' fees, incurred in connection with that effort to enforce this Final Judgment, including in the investigation of the potential violation.

XII. EFFECTIVE DATE AND EXPIRATION OF FINAL JUDGMENT

This Final Judgment will take effect thirty (30) days after the date on which it is entered (the "Effective Date"), and Plaintiffs must report the date on which Google has substantially implemented all provisions of this Final Judgment. Unless the Court grants an extension or early termination is granted, this Final Judgment will expire ten (10) years from the Effective Date. This Final Judgment may be terminated upon notice by the United States (after consultation with the Co-Plaintiff States), the Colorado Plaintiff States' enforcement committee, and Google that continuation of this Final Judgment is no longer necessary to restore competition in the monopolized markets. Alternatively, if Google has complied with all terms of this Final Judgment for at least the preceding five (5) years and if Google's Competitors' combined market share in U.S. GSEs, as measured by the six-month moving medians of two industry standards, agreed upon by Google and the Plaintiffs, is greater than 50% (excluding all syndicated queries), Google may petition the Court to terminate this Final Judgment on the grounds that competition

in both relevant markets has increased so substantially that this Final Judgment is no longer needed.

XIII. THIRD-PARTY RIGHTS

Nothing in this Final Judgment is intended to confer upon any other persons any rights or remedies of any nature whatsoever or by reason of this Final Judgment other than the right to submit complaints to the Compliance Officer and the TC.

XIV. FEES AND COSTS

Plaintiffs are prevailing parties in this litigation. Google is ordered to pay Plaintiff United States' costs, the Co-Plaintiff States' reasonable attorneys' fees and costs, and the Colorado Plaintiff States' reasonable attorneys' fees and costs.
